EDUCATION

B.Tech AIDS- Sri Eshwar College Of Engineering || CGPA : 7.6   **2024-2028**

HSC - Bharathi Matric Higher Sec School || 89%   **2022-2024**

SSLC- Bharathi Matric Higher Sec School || 84%   **2021-2022**

INTERNSHIPS

PROJECTS

AI Text Summarizer:

Built a command-line tool that leverages state-of-the-art transformer models to automatically summarize long-form text into concise, point-by-point summaries. The application accepts multi-line user input, processes it using a pre-trained BART model from Hugging Face, and formats the output for readability by splitting the summary into individual bullet points using regex-based sentence tokenization.

Cricket Score Sheet:

This project is a simple C program that creates a cricket score sheet for one team. It takes input for each player's name, runs, balls faced, number of fours, and sixes, then calculates the total score and wickets. Finally, it displays a formatted scorecard, making it a useful beginner-level project to practice structures, arrays, and basic input/output in C.

CERTIFICATIONS

Introduction to C | **Sololearn**

Mastering Data Structures & Algorithms using C and C++ | **Udemy**

Level Up C | **Linkedin Learning**

Practical GitHub Code Search | **Linkedin Learning**

CODING PROFILES

Leetcode : **40+ solved problems**

Skillrack : **750+ solved problems**

Hackerrank: **4 stars in c(silver),3 stars in python(silver)**

SKILLS

LANGUAGES - HTML,C,C++,PYTHON

TOOLS - VS CODE , CANVA , POWERPOINT , WORD , CANVA , EXCEL

BUSINESS SKILLS - MARKET SEARCH , BUSINESS MODEL
